MEMORANDUM FOR

HEADS OF DEPARTMENTS AND AGENCIES

Two years ago, I initiated Mission SAFETY-70 -- a program to reduce Federal work injuries and their costs 30 per cent by 1970.

Reports I have received indicate that a much more conscious effort to eliminate accidents is now underway.

That effort must continue. The need to attain -- and maintain -- the safest working conditions must be a primary goal of every Federal agency.

Accordingly, I request that each department and agency head, within the next 30 days again furnish me a report of the accident prevention efforts they are presently undertaking and their plans for the coming year. The report should include (a) actions taken during 1966, (b) specific accomplishments, (c) future objectives, and (d) identification of any areas of weakness and plans to overcome them.
